

It's Going to Cost How Much for a College Education?!!

Hi, I'm Sharon Voss with **Voss and Associates Financial Services**. Let me help you find the money necessary to send your college-bound students to college without going bankrupt. Money does not have to be an obstacle to a college education

College costs have escalated over the past years to where it seems impossible for parents to afford to send their grown children to college without borrowing from their retirement accounts and/or re-mortgaging their homes. But there is a way, and it is through *endowment funding*. Endowment money is money offered by colleges to students *that does not have to be paid back*. So, I help families find that money and take the financial stress out of the picture. These awards are based on the student's interests and talents, and having nothing to do with household income or assets. As you can see, this goes a long way to preserving the families' wealth which may otherwise have to be tapped.

Did you know that...

every year, there are billions of dollars, yes billions of dollars in college endowments that go begging?

Did you know that...

many schools will waive their application fees until matriculation if you ask?

Did you know that...

many schools offer campus visits and will even pay some travel expenses? (but you have to ask for it!)

Did you know that...

early planning is key to endowment funding from your college of choice?

Let me show you how to get the most money for your college student through endowment funding. I can help you understand how the financial system works to lower your family contribution through proven strategies; help you understand the award letters; negotiate with colleges and universities for greater aid; find the colleges that provide the *most* assistance for your goals, and make sure that the FAFSA (Free Application for Federal Student Aid) is filled out correctly.

Whether your student is 9 or 90, I can help you find the right solution. And if you are a member of the Carbon Valley Chamber of Commerce, there is a discount of 15% for my services.

Sharon Voss is the owner and CEO of **Voss and Associates Financial Services** located here in the Carbon Valley. She is an independent financial professional who specializes in helping families find money for their college-bound students.
